

d'Ouwe Werf

EST. 1802

STELLENBOSCH

our commitment

Environmental initiatives has been formulated and displayed in the Hotel. A green team is in place and they have monthly meeting.

energy

- Incandescent and halogen light bulbs are being replaced with Energy saving compact fluorescent light (CFL) and light emitting diode (LED) bulbs.
- The Hotel's switch off campaign actively communicates to staff and guests to switch off all unnecessary electrical appliances and lights etc.

waste, recycle / reuse / reduce

- Plastic, glass and paper are being recycled and the proceeds are donated to a charity.
- Food waste is composted via the on-site worm farm and the Japanese technology, Bokashi "fermented organic matter" process.
- All spent cooking oil is sent back to the supplier who reuses it for the manufacture of biodiesel.

water

- The Hotel has waterless urinals in the public bathrooms.
- Low flow showerheads have been installed.
- Dual flush toilets are in place in the new rooms.

procurement

- Puro Fairtrade coffee (in partnership with the World Land Trust).
- Biodegradable and recycled products e.g. pencils, pens, paper, etc are actively sourced for use in the Hotel.
- Room amenities are environmentally friendly.

our commitment
